THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field ⁽¹⁾, as last amended by Regulation (EC) No 806/2003 ⁽²⁾, and in particular Articles 3(3) and 5(3) thereof,

Whereas:

- (1) As soon as the presence of avian influenza was officially confirmed in 2003, the Netherlands reported that it had immediately implemented the control measures to be applied in the event of an outbreak of that disease as provided for in Council Directive 92/40/EEC of 19 May 1992 introducing Community measures for the control of avian influenza ⁽³⁾, as last amended by the Act of Accession of Austria, Finland and Sweden, as required in order to obtain a financial contribution from the Community for the eradication of the disease in accordance with Decision 90/424/EEC.
- (2) Avian influenza represents a serious danger to Community stocks. Accordingly, in order to prevent the spread of that disease and contribute to its eradication, the Community should contribute to eligible expenditures incurred by the Netherlands. It is therefore appropriate that a financial contribution from the Community should be granted to the Netherlands under the provisions of Decision 90/424/EEC in order to cover the costs related to the outbreak of avian influenza in 2003.
- (3) It is necessary to clarify the concepts of 'swift and adequate compensation of the livestock farmers' and 'destruction, cleaning, disinfection and disinsectisation costs' used in Article 3(2) of Decision 90/424/EEC and the concepts of 'reasonable payments' and 'justified payments' mentioned in this Decision.
- (4) On 23 April 2003, the Netherlands presented tables with the value of different types of poultry and eggs. These values are the basis for the eligible compensations granted to the owners. They may be adapted on a regular basis in function of the price evolution in the Netherlands and surrounding Member States.
- (5) Pursuant to Article 3(2) of Council Regulation (EC) No 1258/1999 of 17 May 1999 on the financing of the common agriculture policy ⁽⁴⁾, veterinary and plant-health measures undertaken in accordance with Community rules are to be financed under the Guarantee Section of the European Agricultural Guidance and Guarantee Fund. For financial control purposes, Articles 8 and 9 of Regulation (EC) No 1258/1999 apply.
- (6) Having regard to the budgetary situation for the emergency fund at this stage of the 2003 financial year, and to the uncertainty on the final eligible amount needed to compensate the outbreak of the disease, the financial contribution at this stage should be limited to an advance covering 50 % of the eligible costs

incurred in March and April 2003 for the obligatory killing of the animals and the obligatory destruction of the eggs.

- (7) The financial contribution from the Community should be granted provided that the actions planned are carried out efficiently and that the competent authorities supply all the necessary information within the time limits laid down in this Decision.
- (8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

2. At the request of the Dutch authorities based on appropriate justification, it may be decided in accordance with the procedure laid down in Article 41 of Decision 90/424/EEC to adjust the calculation of the eligible expenditure in order to take account of the evolution of relevant price indexes for poultry and eggs in the Netherlands and surrounding Member States.

3. When the compensation payments made by the Netherlands pursuant to Article 5 of Directive 92/40/EEC and Article 3 of Decisions 2003/214/EC, 2003/258/EC and 2003/290/EC are effected after the 90 days deadline laid down in Article 2(a), the eligible amounts shall be reduced for expenditure effected after the deadline in accordance with the following:

- 25 % for payments made between 91 and 105 days after the culling of the animals or the destruction of the eggs,
- 50 % for payments made between 106 and 120 days after the culling of the animals or the destruction of the eggs,
- 75 % for payments made between 121 and 135 days after the culling of the animals or the destruction of the eggs,
- 100 % for payments beyond 136 days after the culling of the animals or the destruction of the eggs.

When the compensation payments made by the Netherlands pursuant to Article 10 of Directive 90/425/EEC are effected more than 60 days after the notification of this Decision, the eligible amounts shall be reduced for expenditure effected after the deadline in accordance with the following:

- 25 % for payments made between 61 and 75 days,
- 50 % for payments made between 76 and 90 days,
