## COMMISSION DECISION

of 25 April 2008

**laying down standard requirements for the submission by Member States of national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses for Community financing**

*(notified under document number C(2008) 1585)*

**(Text with EEA relevance)**

(2008/425/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field <sup>(1)</sup>, and in particular Article 24(10) thereof,

Whereas:

- (1) Decision 90/424/EEC lays down the procedures governing the Community's financial contribution towards the programmes for the eradication, control and monitoring of animal diseases and zoonoses. Pursuant to that Decision, a Community financial measure is to be introduced to reimburse the expenditure incurred by the Member States for the financing of national programmes for the eradication, control and monitoring of the animal diseases and zoonoses listed in the Annex to that Decision.
- (2) Decision 90/424/EEC provides that each year, by 30 April at the latest, Member States are to submit to the Commission the annual or multi-annual programmes starting in the following year for which they wish to receive a financial contribution from the Community.
- (3) Based on Article 3 of Decision 90/424/EEC, as amended by Decision 2006/965/EC, programmes for Enzootic bovine leucosis (EBL) and Aujeszky's disease may be funded until 31 December 2010.
- (4) Commission Decision 2004/450/EC of 29 April 2004 laying down standard requirements for the content of applications for Community financing for programmes for the eradication, monitoring and control of animal diseases <sup>(2)</sup> provides that Member States seeking a financial contribution from the Community for programmes for the eradication, monitoring and control of certain animal diseases are to submit applications containing certain information set out in that Decision.

<sup>(1)</sup> OJ L 224, 18.8.1990, p. 19.

<sup>(2)</sup> OJ L 155, 30.4.2004, p. 95; corrected by OJ L 193, 1.6.2004, p. 71. Decision as last amended by Decision 2007/268/EC (OJ L 115, 3.5.2007, p. 3).

**▼B**

- (5) Commission Decision 2008/341/EC of 25 April 2008 laying down Community criteria for national programmes for the eradication, control and monitoring of certain animal diseases and zoonoses <sup>(1)</sup> lays down criteria to be fulfilled by the national programmes in order to be approved by the Commission under the Community financial measure provided for in Article 24(1) of Decision 90/424/EEC.
- (6) Following the adoption of Decision 2008/341/EC and in order to further improve the process of submission, approval and assessment of progress during the implementation of the programmes, the standard requirements for the applications by Member States for Community financing for national programmes should be updated and made consistent with those criteria. For the sake of clarity, Decision 2004/450/EC should be repealed and replaced by this Decision.
- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1*

Member States seeking a financial contribution from the Community for national programmes for the eradication, control and monitoring of animal diseases and zoonoses listed in the Annex to Decision 90/424/EEC shall submit applications containing at least the information set out in:

- (a) Annex I to this Decision in respect of:
  - bovine tuberculosis,
  - bovine brucellosis,
  - ovine and caprine brucellosis (*B. melitensis*),
  - bluetongue in endemic or high risk areas,
  - African swine fever,
  - swine vesicular disease,
  - classical swine fever,
  - anthrax,
  - contagious bovine pleuropneumonia,
  - rabies,
  - echinococcosis,
  - trichinellosis,
  - verotoxigenic *E. coli*,
  - enzootic bovine leucosis (EBL) and Aujeszky's disease;

<sup>(1)</sup> OJ L 115, 29.4.2008, p. 44.

**▼B**

- (b) Annex II to this Decision in respect of salmonellosis (zoonotic salmonella);
- (c) Annex III to this Decision in respect of transmissible spongiform encephalopathies (TSE) (bovine spongiform encephalopathy (BSE), scrapie and chronic waste disease (CWD));
- (d) Annex IV to this Decision in respect of avian influenza in poultry and wild birds;
- (e) Annex V to this Decision in respect of:
  - infectious haematopoietic necrosis,
  - infectious salmon anaemia,
  - spring viraemia of carp (SVC),
  - viral haemorrhagic septicaemia (VHS),
  - koi herpes virus infection (KHV),
  - infection with *Bonamia ostreae*,
  - infection with *Marteilia refringens*,
  - white spot disease in crustaceans.

**▼M1***Article 1a*

From 1 January 2013, the applications provided for in Article 1 paragraphs (a) to (d) shall be submitted online by Member States using the corresponding standard electronic templates provided by the Commission.

**▼B***Article 2*

Decision 2004/450/EC is repealed.

*Article 3*

This Decision is addressed to the Member States.

**Standard requirements for the submission of national programmes for the eradication, control and monitoring of the animal diseases or zoonoses referred to in Article 1(a) <sup>(1)</sup>****1. Identification of the programme**

Member State:

Disease(s) <sup>(2)</sup>:Request of Union co-financing for <sup>(3)</sup>:

Reference of this document:

Contact (name, phone, fax, e-mail):

Date of submission to the Commission:

**2. Historical data on the epidemiological evolution of the disease(s) <sup>(4)</sup>:****3. Description of the submitted programme <sup>(5)</sup>:****4. Measures of the submitted programme****4.1. Summary of measures under the programme**

Duration of the programme:

First year:

Last year:

☐ Control☐ Eradication

<sup>(1)</sup> In the case of the second and subsequent years of a multiannual programme that has already been approved by a Commission Decision, only Section 1, Section 6 (only for the evolution of the disease during the previous year), Section 7 and Section 8 need to be completed.

<sup>(2)</sup> One document per disease is used unless all measures of the programme on the target population are used for the monitoring, control and eradication of different diseases.

<sup>(3)</sup> Indicate the year(s) for which co-financing is requested.

<sup>(4)</sup> A concise description is given including target population (species, number of herds and animals present and under the programme), the main measures (sampling and testing regimes, eradication measures used, qualification of herds and animals, vaccination schemes) and the main results (incidence, prevalence, qualification of herds and animals). The information is given for distinct periods if the measures were substantially modified. The information is documented by relevant summary epidemiological tables (set out in Section 6) complemented by graphs or maps (to be attached).

<sup>(5)</sup> A concise description of the programme is given with the main objective(s) (monitoring, control, eradication, qualification of herds and/or regions, reducing prevalence and incidence), the main measures (sampling and testing regimes, eradication measures to be applied, qualification of herds and animals, vaccination schemes), the target animal population and the area(s) of implementation and the definition of a positive case.

| <input type="checkbox"/> Eradication, control or monitoring   | <input type="checkbox"/> Other measures ( <i>specify</i> ):   |

- 4.2. *Organisation, supervision and role of all stakeholders* <sup>(1)</sup>involved in the programme:
- 4.3. *Description and demarcation of the geographical and administrative areas in which the programme is to be implemented* <sup>(2)</sup>:
- 4.4. *Description of the measures of the programme* <sup>(3)</sup>:
- 4.4.1. Notification of the disease
- 4.4.2. Target animals and animal population
- 4.4.3. Identification of animals and registration of holdings
- 4.4.4. Qualifications of animals and herds <sup>(4)</sup>
- 4.4.5. Rules on the movement of animals
- 4.4.6. Tests used and sampling schemes
- 4.4.7. Vaccines used and vaccination schemes
- 4.4.8. Information and assessment on bio-security measures management and infrastructure in place in the holdings involved
- 4.4.9. Measures in case of a positive result <sup>(5)</sup>

<sup>(1)</sup> Describe the authorities in charge of supervising and coordinating the departments responsible for implementing the programme and the different operators involved. Describe the responsibilities of all involved.

<sup>(2)</sup> Describe the name and denomination, the administrative boundaries, and the surface of the administrative and geographical areas in which the programme is to be applied. Illustrate with maps.

<sup>(3)</sup> A comprehensive description needs to be provided of all measures unless reference can be made to Union legislation. The national legislation in which the measures are laid down is also mentioned.

<sup>(4)</sup> To mention only if applicable.

<sup>(5)</sup> A description is provided of the measures as regards positive animals (description of the slaughter policy, destination of carcasses, use or treatment of animal products, the destruction of all products which could transmit the disease or the treatment of such products to avoid any possible contamination, a procedure for the disinfection of infected holdings, the therapeutic or preventive treatment chosen, a procedure for the restocking with healthy animals of holdings which have been depopulated by slaughter and the creation of a surveillance zone around the infected holding.).

▼ **M1**

4.4.10. Compensation scheme for owners of slaughtered and killed animals

4.4.11. Control on the implementation of the programme and reporting <sup>(1)</sup>

5. **Benefits of the programme** <sup>(2)</sup>:

6. **Data on the epidemiological evolution during the last five years** <sup>(3)</sup>

6.1. *Evolution of the disease* <sup>(4)</sup>

6.1.1. Data on herds <sup>(a)</sup> (one table per year)

Year:

Region <sup>(b)</sup>	Animal species	Total number of herds <sup>(c)</sup>	Total number of herds under the programme	Number of herds checked <sup>(d)</sup>	Number of positive herds <sup>(e)</sup>	Number of new positive herds <sup>(f)</sup>	Number of herds depopulated	% positive herds depopulated	Indicators		
									% herd coverage	% positive herds Period herd prevalence	% new positive herds Herd incidence
1	2	3	4	5	6	7	8	$9 = (f) \times 100$	$10 = (5/4) \times 100$	$11 = (6/5) \times 100$	$12 = (7/5) \times 100$
<b>Total</b>											

<sup>(a)</sup> Herds or flocks or holdings as appropriate.

<sup>(b)</sup> Region as defined in the programme of the Member State.

<sup>(c)</sup> Total number of herds existing in the region including eligible herds and non-eligible herds for the programme.

<sup>(d)</sup> Check means to perform a herd level test under the programme for the respective disease with the purpose of maintaining or upgrading, the health status of the herd. In this column a herd must not be counted twice even if has been checked more than once.

<sup>(e)</sup> Herds with at least one positive animal during the period independent of the number of times the herd has been checked.

<sup>(f)</sup> Herds which status in the previous period was *Unknown, Not free-negative, Free, Officially Free* or *Suspended* and have at least one animal tested positive in this period.

<sup>(1)</sup> Describe the process and control that will be carried out in order to ensure the proper monitoring of the implementation of the programme.

<sup>(2)</sup> A description is provided of the benefits for farmers and society in general from the public health, animal health and economical point of view.

<sup>(3)</sup> The data on the evolution of the disease are provided according to the tables below where appropriate.

<sup>(4)</sup> No data to be provided in case of rabies.

▼ **M1**

## 6.1.2. Data on animals (one table per year)

Year:

Region <sup>(a)</sup>	Animal species	Total number of animals <sup>(b)</sup>	Number of animals <sup>(d)</sup> to be tested under the programme	Number of animals <sup>(c)</sup> tested	Number of animals tested individually <sup>(d)</sup>	Number of positive animals	Slaughtering		Indicators	
							Number of animals with positive result slaughtered or culled	Total number of animals slaughtered <sup>(e)</sup>	% coverage at animal level	% positive animals Animal prevalence
1	2	3	4	5	6	7	8	9	$10 = (5/4) \times 100$	$11 = (7/5) \times 100$
<b>Total</b>										

<sup>(a)</sup> Region as defined in the programme of the Member State.<sup>(b)</sup> Total number of animals existing in the region including eligible herds and non-eligible herds for the programme.<sup>(c)</sup> Includes animals tested individually or under bulk level scheme.<sup>(d)</sup> Include only animals tested individually, do not include animals tested by bulk level samples (for instance: milk bulk tank tests).<sup>(e)</sup> Include all positive animal slaughtered and also the negative animals slaughtered under the programme.6.2. *Stratified data on surveillance and laboratory tests*

## 6.2.1. Stratified data on surveillance and laboratory tests

Year:

Region <sup>(a)</sup>	Animal species/category	Test type <sup>(b)</sup>	Test description	Number of samples tested	Number of positive samples

▼ **M1**

Region <sup>(a)</sup>	Animal species/category	Test type <sup>(b)</sup>	Test description	Number of samples tested	Number of positive samples
<b>Total</b>					

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Indicate whether the test is serological, virological etc.

6.3. *Data on infection (one table per year)*

Year:

Region <sup>(a)</sup>	Animal species	Number of herds infected <sup>(b)</sup>	Number of animals infected
<b>Total</b>			

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Herds or flocks or holdings as appropriate.

▼ **M1**6.4. Data on the status of herds at the end of each year <sup>(1)</sup>

Year:

Region <sup>(a)</sup>	Animal species	Status of herds and animals under the programme <sup>(b)</sup>													
		Total number of herds and animals under the programme		Unknown <sup>(c)</sup>		Not free or not officially free from disease				Free or officially free from disease status suspended <sup>(f)</sup>		Free from disease <sup>(g)</sup>		Officially free from disease <sup>(h)</sup>	
						Last check positive <sup>(d)</sup>		Last check negative <sup>(e)</sup>							
		Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>	Herds	Animals <sup>(i)</sup>
Total															

<sup>(a)</sup> Region as defined in the programme of the Member State.<sup>(b)</sup> At the end of the year.<sup>(c)</sup> Unknown: No previous checking results available.<sup>(d)</sup> Not free and last check positive: Herd checked with at least one positive result in the latest check.<sup>(e)</sup> Not free and last check negative: Herd checked with negative results in the latest check but not being *Free* or *Officially Free*.<sup>(f)</sup> Suspended as defined in Union or national legislation for the respective disease at the end of the reporting period.<sup>(g)</sup> Free herd as defined in Union or national legislation for the respective disease.<sup>(h)</sup> Officially free herd as defined in Union or national legislation for the respective disease.<sup>(i)</sup> Include animals under the programme in the herds with the referred status (left column).<sup>(1)</sup> Data only to be provided for bovine tuberculosis, bovine brucellosis, ovine and caprine brucellosis (*B. melitensis*).

▼ **M1**6.5. *Data on vaccination or treatment programmes* <sup>(1)</sup>

Year:

Region <sup>(a)</sup>	Animal species	Total number of herds <sup>(b)</sup>	Total number of animals	Information on vaccination or treatment programme					
				Number of herds in vaccination or treatment programme	Number of herds vaccinated or treated	Number of animals vaccinated or treated	Number of doses of vaccine or treatment administered	Number of adults vaccinated	Number of young animals vaccinated
<b>Total</b>									

<sup>(a)</sup> Region as defined in the programme of the Member State.<sup>(b)</sup> Herds or flocks or holdings as appropriate.6.6. *Data on wildlife* <sup>(2)</sup>

## 6.6.1. Estimation of wildlife population

Year:

Regions <sup>(a)</sup>	Animal species	Method of estimation	Estimated population

<sup>(1)</sup> Data only to be provided if vaccination has been carried out.<sup>(2)</sup> Data only to be provided in case the programme comprises measures as regards wildlife or if the data are epidemiologically relevant for the disease.

▼ **M1**

Regions <sup>(a)</sup>	Animal species	Method of estimation	Estimated population
<b>Total</b>			

<sup>(a)</sup> Region as defined in the programme of the Member State.

## 6.6.2. Disease surveillance and other tests in wildlife (one table per year)

Year:

Region <sup>(a)</sup>	Animal Species	Test type <sup>(b)</sup>	Test description	Number of samples tested	Number of positive samples
<b>Total</b>					

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Indicate whether the test is serological, virological, biomarker detection etc.

## 6.6.3. Data on vaccination or treatment of wildlife

Year:

Region <sup>(a)</sup>	Square km	Vaccination or treatment programme		
		Number of doses of vaccine or treatment to be administered	Number of campaigns	Total number of doses of vaccine or treatment administered

▼ **M1**

Region <sup>(a)</sup>	Square km	Vaccination or treatment programme		
		Number of doses of vaccine or treatment to be administered	Number of campaigns	Total number of doses of vaccine or treatment administered

<sup>(a)</sup> Region as defined in the programme of the Member State.

## 7. **Targets**

### 7.1. *Targets related to testing (one table for each year of implementation <sup>(1)</sup>)*

#### 7.1.1. Targets on diagnostic tests

Region <sup>(a)</sup>	Test type <sup>(b)</sup>	Target population <sup>(c)</sup>	Type of sample <sup>(d)</sup>	Objective <sup>(e)</sup>	Number of planned tests
<b>Total</b>					

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Description of the test (for instance SN-test, Elisa, RBT).

<sup>(c)</sup> Specification of the targeted species and the categories of targeted animals (for instance sex, age, breeding animal, slaughter animal).

<sup>(d)</sup> Description of the sample (for instance blood, serum, milk).

<sup>(e)</sup> Description of the objective (for instance qualification, surveillance, confirmation of suspected cases, monitoring of campaigns, seroconversion, control on deleted vaccines, testing of vaccine, control of vaccination).

<sup>(1)</sup> For subsequent years of approved multiannual programmes only one table for the relevant year should be filled in.

▼ **M1**

7.1.2. Targets on testing herds and animals <sup>(1)</sup>

7.1.2.1. Targets on the testing of herds <sup>(a)</sup>

Region <sup>(b)</sup>	Animal species	Total number of herds <sup>(c)</sup>	Total number of herds under the programme	Number of herds expected to be checked <sup>(d)</sup>	Number of expected positive herds <sup>(e)</sup>	Number of expected new positive herds <sup>(f)</sup>	Number of herds expected to be depopulated	% positive herds expected to be depopulated	Target indicators		
									Expected % herd coverage	% positive herds Expected period herd prevalence	% new positive herds Expected herd incidence
1	2	3	4	5	6	7	8	$9 = (8/6) \times 100$	$10 = (5/4) \times 100$	$11 = (6/5) \times 100$	$12 = (7/5) \times 100$
<b>Total</b>											

<sup>(a)</sup> Herds or flocks, or holdings as appropriate.

<sup>(b)</sup> Region as defined in the programme of the Member State.

<sup>(c)</sup> Total number of herds existing in the region including eligible herds and non-eligible herds for the programme.

<sup>(d)</sup> Check means to perform a herd level test under the programme for the respective disease with the purpose of maintaining, upgrading, etc., the health status of the herd. In this column a herd must not be counted twice even if it has been checked more than once.

<sup>(e)</sup> Herds with at least one positive animal during the period independent of the number of times the herd has been checked.

<sup>(f)</sup> Herds which status in the previous period was *Unknown*, *Not free-negative*, *Free*, *Officially Free* or *Suspended* and have at least one positive animal in this period.

<sup>(1)</sup> Data not to be provided in case of rabies.

▼ **M1**

## 7.1.2.2. Targets on the testing of animals

Region <sup>(a)</sup>	Animal species	Total number of animals <sup>(b)</sup>	Number of animals <sup>(c)</sup> under the programme	Number of animals <sup>(c)</sup> expected to be tested	Number of animals to be tested individually <sup>(d)</sup>	Number of expected positive animals	Slaughtering		Target indicators	
							Number of animals tested positive expected to be slaughtered or culled	Total number of animals expected to be slaughtered <sup>(e)</sup>	Expected % coverage at animal level	% positive animals (expected animal prevalence)
1	2	3	4	5	6	7	8	9	$10 = (5/4) \times 100$	$11 = (7/5) \times 100$
<b>Total</b>										

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Total number of animals existing in the region including eligible herds and non-eligible herds for the programme.

<sup>(c)</sup> Includes animals tested individually or under bulk level scheme.

<sup>(d)</sup> Include only animals tested individually, do not include animals tested by bulk level samples (for instance milk bulk tank tests).

<sup>(e)</sup> Include all positive animals slaughtered and also the negative animals slaughtered under the programme.

## ▼ M1

## 7.2. Targets on qualification of herds and animals (one table for each year of implementation)

Region (a)	Animal species	Total number of herds and animals under the programme		Targets on the status of herds and animals under the programme (b)											
				Expected unknown (c)		Expected not free or not officially free from disease		Expected free or officially free from disease status suspended (f)		Expected free from disease (g)		Expected officially free from disease (h)			
		Herds	Animals (i)	Herds	Animals (i)	Herds	Animals (i)	Herds	Animals (i)	Herds	Animals (i)	Herds	Animals (i)	Herds	Animals (i)
Total															

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> At the end of the year.

<sup>(c)</sup> Unknown: No previous checking results available.

<sup>(d)</sup> Not free and last check positive: Herd checked with at least one positive result in the latest check.

<sup>(e)</sup> Not free and last check negative: Herd checked with negative results in the latest check but not being *Free* or *Officially Free*.

<sup>(f)</sup> Suspended as defined for the respective disease in Union or national legislation where appropriate or according national legislation.

<sup>(g)</sup> Free herd as defined for the respective disease where appropriate in Union or national legislation where appropriate or according to national legislation.

<sup>(h)</sup> Officially free herd as defined for the respective disease where appropriate in Union or national legislation or according to national legislation.

<sup>(i)</sup> Include animals under the programme in the herds with the referred status (left column).

▼ **M1***ANNEX II***Standard requirements for the submission of national programmes for the control of salmonellosis (zoonotic salmonella) as referred to in Article 1(b) <sup>(1)</sup>****PART A****General requirements for the national salmonella control programmes****Member State**

- (a) Aim of the programme.
- (b) Animal population and phases of production which sampling must cover <sup>(2)</sup>:

Demonstrate the evidence that the programme complies with the minimum sampling requirements laid down in part B of Annex II to Regulation (EC) No 2160/2003 of the European Parliament and of the Council <sup>(3)</sup> indicating the relevant animal population and phases of production which sampling must cover.

**Breeding flocks of *Gallus gallus*:**

- rearing flocks                      — day-old chicks
- four-week-old birds
- two weeks before moving to laying phase or laying unit
- adult breeding flocks — every second week during the laying period

**Laying hens:**

- rearing flocks                      — day-old chicks
- pullets two weeks before moving to laying phase or laying unit
- laying flocks — every 15 weeks during the laying phase

**Broilers** — birds leaving for slaughter

**Turkeys** — birds leaving for slaughter

**Herds of pigs:**

- breeding pigs — animals leaving for slaughter or carcasses at the slaughterhouse
- slaughter pigs — animals leaving for slaughter or carcasses at the slaughterhouse

- (c) Specific requirements:

Demonstrate the evidence that the programme complies with the specific requirements laid down in Parts C, D and E of Annex II to Regulation (EC) No 2160/2003.

<sup>(1)</sup> In the case of the second and subsequent years of a multiannual programme that has already been approved by a Commission Decision, only Part B Section 6 (only evolution of the disease during the previous year), Section 7 and Section 8 need to be completed.

<sup>(2)</sup> For different animal populations a complete separate document per population according to this Annex must be filled in for the submission of the programmes.

<sup>(3)</sup> OJ L 325, 12.12.2003, p. 1.

**▼ M1**

(d) Specification of the following points:

1. General
  - 1.1. A short summary referring to the occurrence of the salmonellosis [zoonotic salmonella] in the Member State with specific reference to the results obtained in the framework of monitoring in accordance with Article 4 of Directive 2003/99/EC of the European Parliament and of the Council <sup>(1)</sup>, particularly highlighting the prevalence values of the salmonella serotypes targeted in the salmonella control programmes.
  - 1.2. The structure and organisation of the relevant competent authorities. Please refer to the information flow between bodies involved in the implementation of the programme.
  - 1.3. Approved laboratories where samples collected within the programme are analysed.
  - 1.4. Methods used in the examination of the samples in the framework of the programme.
  - 1.5. Official controls (including sampling schemes) at feed, flock and/or herd level.
2. Concerning food and feed businesses covered by the programme
  - 2.1. The structure of the production of the given species and products thereof.
  - 2.2. The structure of the production of feed.
  - 2.3. Relevant guidelines for good animal husbandry practices or other guidelines (mandatory or voluntary) on biosecurity measures defining at least:
    - hygiene management at farms,
    - measures to prevent incoming infections carried by animals, feed, drinking water, people working at farms, and
    - hygiene in transporting animals to and from farms.
  - 2.4. Routine veterinary supervision of farms.
  - 2.5. Registration of farms.
  - 2.6. Record-keeping at farms.
  - 2.7. Documents to accompany animals when dispatched.
  - 2.8. Other relevant measures to ensure the traceability of animals.

## PART B

### 1. Identification of the programme

Member State:

Disease: infection of animals with zoonotic *Salmonella* spp.

<sup>(1)</sup> OJ L 325, 12.12.2003, p. 31.

**▼ M1**

Animal population covered by the programme:

Year/s of implementation:

Reference of this document:

Contact (name, phone, fax, e-mail):

Date of submission to the Commission:

2. **Historical data on the epidemiological evolution of zoonotic salmonellosis specified in Section 1 <sup>(1)</sup>:**

3. **Description of the submitted programme <sup>(2)</sup>:**

4. **Measures of the submitted programme**

Measures taken by the competent authorities with regard to animals or products in which the presence of *Salmonella* spp. have been detected, in particular to protect public health, and any preventive measures taken, such as vaccination.

4.1. *Summary of measures under the programme*

Duration of the programme:

First year:

Last year:

☐ Control

☐ Control/eradication

☐ Testing

☐ Testing

☐ Slaughter of animals tested positive

☐ Slaughter of animals tested positive

☐ Killing of animals tested positive

☐ Killing of animals tested positive

☐ Vaccination

☐ Extended slaughter or killing

☐ Treatment of animal products

☐ Disposal of products

☐ Disposal of products

☐ Monitoring or surveillance

☐ Other measures (*specify*):

<sup>(1)</sup> A concise description is given with data on the target population (species, number of flocks/herds and animals present and covered by the programme), the main measures (testing, testing and slaughter, testing and killing, qualification of flocks/herds and animals, vaccination) and the main results (incidence, prevalence, qualification of flocks/herds and animals). The information is given for distinct periods if the measures were substantially modified. The information is documented by relevant summary epidemiological tables, graphs or maps.

<sup>(2)</sup> A concise description of the programme is given with the main objective(s) (monitoring, control, eradication, qualification of flocks/herds and/or regions, reducing prevalence and incidence), the main measures (testing, testing and slaughter, testing and killing, qualification of flocks/herds and animals, vaccination), the target animal population and the area(s) of implementation and the definition of a positive case.

**▼ M1**

- 4.2. *Designation of the central authority in charge of supervising and coordinating the departments responsible for implementing the programme* <sup>(1)</sup>:
- 4.3. *Description and delimitation of the geographical and administrative areas in which the programme is to be implemented* <sup>(2)</sup>:
- 4.4. *Measures implemented under the programme* <sup>(3)</sup>
  - 4.4.1. Measures and applicable legislation as regards the registration of holdings:
  - 4.4.2. Measures and applicable legislation as regards the identification of animals <sup>(4)</sup>:
  - 4.4.3. Measures and applicable legislation as regards the notification of the disease:
  - 4.4.4. Measures and applicable legislation as regards the measures in case of a positive result <sup>(5)</sup>:
  - 4.4.5. Measures and applicable legislation as regards the different qualifications of animals and herds:
  - 4.4.6. Control procedures, and in particular rules on the movement of animals liable to be affected or contaminated by a given disease, and the regular inspection of the holdings or areas concerned <sup>(6)</sup>:
  - 4.4.7. Measures and applicable legislation as regards the control (testing, vaccination, ...) of the disease:  
  
National legislation relevant to the implementation of the programmes, including any national provisions concerning the activities set out in the programme.
  - 4.4.8. Measures and applicable legislation as regards the compensation for owners of slaughtered and killed animals:  
  
Any financial assistance provided to food and feed businesses in the context of the programme.
  - 4.4.9. Information and assessment on bio-security measures management and infrastructure in place in the flocks/holdings involved:
5. **General description of the costs and benefits** <sup>(7)</sup>:

<sup>(1)</sup> Describe the authorities in charge of supervising and coordinating the departments responsible for implementing the programme and the different operators involved. Describe the responsibilities of all involved.

<sup>(2)</sup> Describe the name and denomination, the administrative boundaries, and the surface of the administrative and geographical areas in which the programme is to be applied. Illustrate with maps.

<sup>(3)</sup> Where appropriate Union legislation is mentioned. Otherwise the national legislation is mentioned.

<sup>(4)</sup> Not applicable for poultry.

<sup>(5)</sup> A short description is provided of the measures as regards positive animals (slaughter, destination of carcasses, use or treatment of animal products, the destruction of all products which could transmit the disease or the treatment of such products to avoid any possible contamination, a procedure for the disinfection of infected holdings, a procedure for the restocking with healthy animals of holdings which have been depopulated by slaughter).

<sup>(6)</sup> A short description of the control procedures, and in particular rules on the movement of animals liable to be affected or contaminated by a given disease, and the regular inspection of the holdings or areas is provided.

<sup>(7)</sup> A description is provided of all costs for the authorities and society and the benefits for farmers and society in general.

▼ **M1**

6. **Data on the epidemiological evolution during the last five years <sup>(1)</sup>**

6.1. *Evolution of zoonotic salmonellosis*

6.1.2. Data on evolution of zoonotic salmonellosis

Year:

Region <sup>(b)</sup>	Type of flock <sup>(c)</sup>	Total number of flocks <sup>(d)</sup>	Total number of animals	Total number of flocks under the programme	Total number of animals under the programme	Number of flocks checked <sup>(e)</sup>	Serotype <sup>(a)</sup>	Number of positive <sup>(f)</sup> flocks <sup>(a)</sup>	Number of flocks depopulated <sup>(a)</sup>	Total number of animals slaughtered or destroyed <sup>(a)</sup>	Quantity of eggs destroyed (number or kg) <sup>(a)</sup>	Quantity of eggs channelled to egg products (number or kg) <sup>(a)</sup>
<b>Total</b>												

<sup>(a)</sup> For zoonotic salmonellosis indicate the serotypes covered by the control programmes (for instance *Salmonella enteritidis*, *Salmonella typhimurium*, etc.).

<sup>(b)</sup> Region as defined in the programme of the Member State.

<sup>(c)</sup> For example, breeding flocks (rearing, adult flocks), production flocks, laying hen flocks, breeding turkeys, broiler turkeys, breeding pigs, slaughter pigs, etc. Flocks or herds or as appropriate.

<sup>(d)</sup> Total number of flocks existing in the region including eligible flocks and non-eligible flocks for the programme.

<sup>(e)</sup> Check means to perform a flock level test under the programme for the presence of salmonella. In this column a flock must not be counted twice even if it has been checked more than once.

<sup>(f)</sup> If a flock has been checked, in accordance with footnote (d), more than once, a positive sample must be taken into account only once.

<sup>(1)</sup> The data on the evolution of zoonotic salmonellosis are provided according to the tables where appropriate.

▼ **M1**6.2. *Stratified data on surveillance and laboratory tests*

## 6.2.1. Stratified data on surveillance and laboratory tests (one table per year)

Year:

Region <sup>(a)</sup>	Test type	Test description	Number of samples tested	Number of positive samples
		<b>Total</b>		

<sup>(a)</sup> Region as defined in the programme of the Member State.6.3. *Data on infection (one table per year)*

Year:

Region <sup>(a)</sup>	Number of herds infected <sup>(b)</sup>	Number of animals infected

▼ **M1**

Region <sup>(a)</sup>	Number of herds infected <sup>(b)</sup>	Number of animals infected
<b>Total</b>		

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Herds or flocks or holdings as appropriate.

6.4. *Data on vaccination programmes* <sup>(1)</sup>

Year:

Description of the used vaccination

Region <sup>(a)</sup>	Total number of herds <sup>(b)</sup>	Total number of animals	Information on vaccination programme			
			Number of herds <sup>(b)</sup> in vaccination programme	Number of herds <sup>(b)</sup> vaccinated	Number of animals vaccinated	Number of doses of vaccine administered
<b>Total</b>						

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Herds or flocks or holdings as appropriate.

<sup>(1)</sup> Data only to be provided if vaccination has been carried out.

▼ **M1**

7. **Targets**

7.1. *Targets related to testing (one table for each year of implementation)*

7.1.1. Targets on diagnostic tests

Region <sup>(a)</sup>	Type of the test <sup>(b)</sup>	Target population <sup>(c)</sup>	Type of sample <sup>(d)</sup>	Objective <sup>(e)</sup>	Number of planned tests
<b>Total</b>					

<sup>(a)</sup> Region as defined in the programme of the Member State.

<sup>(b)</sup> Description of the test.

<sup>(c)</sup> Specification of the targeted species and the categories of targeted animals if necessary.

<sup>(d)</sup> Description of the sample (for instance faeces).

<sup>(e)</sup> Description of the objective (for instance surveillance, monitoring, control of vaccination).

7.1.2. Targets on testing of flocks <sup>(1)</sup>

Year:

Region <sup>(b)</sup>	Type of flock <sup>(c)</sup>	Total number of flocks <sup>(d)</sup>	Total number of animals	Total number of flocks under the programme	Total number of animals under the programme	Expected number of flocks to be checked <sup>(e)</sup>	Serotype <sup>(a)</sup>	Number of flocks <sup>(1)</sup> expected to be positive <sup>(a)</sup>	Number of flocks expected to be depopulated <sup>(a)</sup>	Total number of animals expected to be slaughtered or destroyed <sup>(a)</sup>	Expected quantity of eggs to be destroyed (number or kg) <sup>(a)</sup>	Expected quantity of eggs channelled to egg products (number or kg) <sup>(a)</sup>

<sup>(1)</sup> Specify types of flocks if appropriate (breeders, layers, broilers).

## ▼ M1

Region <sup>(b)</sup>	Type of flock <sup>(c)</sup>	Total number of flocks <sup>(d)</sup>	Total number of animals	Total number of flocks under the programme	Total number of animals under the programme	Expected number of flocks to be checked <sup>(e)</sup>	Serotype <sup>(a)</sup>	Number of flocks <sup>(f)</sup> expected to be positive <sup>(a)</sup>	Number of flocks expected to be depopulated <sup>(a)</sup>	Total number of animals expected to be slaughtered or destroyed <sup>(a)</sup>	Expected quantity of eggs to be destroyed (number or kg) <sup>(a)</sup>	Expected quantity of eggs channelled to egg products (number or kg) <sup>(a)</sup>
<b>Total</b>												

<sup>(a)</sup> For zoonotic salmonellosis indicate the serotypes covered by the control programmes (for instance *Salmonella enteritidis*, *Salmonella typhimurium*, etc.).

<sup>(b)</sup> Region as defined in the programme of the Member State.

<sup>(c)</sup> For example, breeding flocks (rearing, adult flocks), production flocks, laying hen flocks, breeding turkeys, broiler turkeys, breeding pigs, slaughter pigs, etc. Flocks or herds or as appropriate.

<sup>(d)</sup> Total number of flocks existing in the region including eligible flocks and non-eligible flocks for the programme.

<sup>(e)</sup> Check means to perform a flock level test under the programme for the presence of salmonella. In this column a flock must not be counted twice even if it has been checked more than once.

<sup>(f)</sup> If a flock has been checked, in accordance with footnote (e), more than once, a positive sample must be taken into account only once.

## 7.2. Targets on vaccination (one table for each year of implementation)

### 7.2.1. Targets on vaccination <sup>(1)</sup>

Region <sup>(a)</sup>	Total number of herds <sup>(b)</sup> in vaccination programme	Total number of animals in vaccination programme	Targets on vaccination programme			
			Number of herds <sup>(b)</sup> in vaccination programme	Number of herds <sup>(b)</sup> expected to be vaccinated	Number of animals expected to be vaccinated	Number of doses of vaccine expected to be administered

<sup>(1)</sup> Data only to be provided if appropriate.

▼ M1

Region <sup>(a)</sup>	Total number of herds <sup>(b)</sup> in vaccination programme	Total number of animals in vaccination programme	Targets on vaccination programme			
			Number of herds <sup>(b)</sup> in vaccination programme	Number of herds <sup>(b)</sup> expected to be vaccinated	Number of animals expected to be vaccinated	Number of doses of vaccine expected to be administered
<b>Total</b>						

(a) Region as defined in the programme of the Member State.

(b) Herds or flocks or holdings as appropriate.

8. Detailed analysis of the cost of the programme (one table per year of implementation)

Costs related to	Specification	Number of units	Unitary cost in EUR	Total amount in EUR	Union funding requested (yes/no)
<b>1. Testing</b>					
1.1. Cost of the sampling					
	Domestic animals				
1.2. Cost of the analysis	Bacteriological tests (cultivation) in the framework of official sampling				
	Serotyping of relevant isolates				
	Bacteriological test to verify the efficiency of disinfection of premises after depopulation of a salmonella-positive flock				

▼ **M1**

Costs related to	Specification	Number of units	Unitary cost in EUR	Total amount in EUR	Union funding requested (yes/no)
	Test for the detection of antimicrobials or bacterial growth inhibitory effect in tissues from animals from flocks/herds tested for salmonella				
	Other (please specify)				
<b>2. Vaccination</b>	(If co-financing for the purchase of vaccines is requested, Sections 6.4 and 7.2 must also be completed if vaccination policy is part of your programme)				
2.1. Purchase of vaccine doses	Number of vaccine doses				
<b>3. Slaughter and destruction</b>					
3.1. Compensation of animals	Compensation of animals				

▼ **M1**

Costs related to	Specification	Number of units	Unitary cost in EUR	Total amount in EUR	Union funding requested (yes/no)

Date of submission to the Commission:

**2. Description of the programme****3. Description of the epidemiological situation of the disease****4. Measures included in the programme**4.1. *Designation of the central authority in charge of supervising and coordinating the departments responsible for implementing the programme:*4.2. *Description and delimitation of the geographical and administrative areas in which the programme is to be applied:*4.3. *System in place for the registration of holdings:*4.4. *System in place for the identification of animals:*4.5. *Measures in place as regards the notification of the disease:*4.6. *Testing*

4.6.1. Rapid tests in bovine animals

	Age (in months) above which animals are tested	Estimated number of animals to be tested	Estimated number of rapid tests, including rapid tests used for confirmation
Animals referred to in Annex III, Chapter A, Part I, points 2.1, 3 and 4 of Regulation (EC) No 999/2001 of the European Parliament and of the Council <sup>(1)</sup>			
Animals referred to in Annex III, Chapter A, Part I, point 2.2 of Regulation (EC) No 999/2001			
Others (specify)			

<sup>(1)</sup> OJ L 147, 31.5.2001, p. 1.<sup>(1)</sup> Bovine spongiform encephalopathy (BSE) and scrapie.<sup>(2)</sup> One document per disease is used unless all measures of the programme on the target population are used for the control and eradication of different diseases.

▼ **M1**

## 4.6.2. Rapid tests in ovine animals

Population of ewes and ewe lambs put to the ram in the Member State

	Estimated number of animals to be tested
Ovine animals referred to in Annex III, Chapter A, Part II, point 2 of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex III, Chapter A, Part II, point 3 of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex III, Chapter A, Part II, point 5 of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex VII, Chapter A, point 2.3(d) of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex VII, Chapter A, point 3.4(d) of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex VII, Chapter A, point 4(b) and (e) of Regulation (EC) No 999/2001	
Ovine animals referred to in Annex VII, Chapter A, point 5(b)(ii) of Regulation (EC) No 999/2001	
Others (specify)	

## 4.6.3. Rapid tests in caprine animals

Population of goats which have already kidded and goats mated in the Member State

	Estimated number of animals to be tested
Caprine animals referred to in Annex III, Chapter A, Part II, point 2 of Regulation (EC) No 999/2001	
Caprine animals referred to in Annex III, Chapter A, Part II, point 3 of Regulation (EC) No 999/2001	
Caprine animals referred to in Annex III, Chapter A, Part II, point 5 of Regulation (EC) No 999/2001	
Caprine animals referred to in Annex VII, Chapter A, point 2.3(d) of Regulation (EC) No 999/2001	
Caprine animals referred to in Annex VII, Chapter A, point 3.3(c) of Regulation (EC) No 999/2001	
Caprine animals referred to in Annex VII, Chapter A, point 4(b) and (e) of Regulation (EC) No 999/2001	

▼ **M1**

	Estimated number of animals to be tested
Caprine animals referred to in Annex VII, Chapter A, point 5(b)(ii) of Regulation (EC) No 999/2001	
Others (specify)	

4.6.4. Confirmatory tests other than rapid tests <sup>(1)</sup> as referred to in Chapter C of Annex X to Regulation (EC) No 999/2001

	Estimated number of tests
Confirmatory tests in bovine animals	
Confirmatory tests in ovine and caprine animals	

## 4.6.5. Discriminatory tests

	Estimated number of tests
Primary molecular testing referred to in Annex X, Chapter C, point 3.2(c)(i) of Regulation (EC) No 999/2001	

## 4.6.6. Genotyping of positive and randomly selected animals

	Estimated number of tests
Animals referred to in Annex III, Chapter A, Part II, point 8.1 of Regulation (EC) No 999/2001	
Animals referred to in Annex III, Chapter A, Part II, point 8.2 of Regulation (EC) No 999/2001	

4.7. *Eradication*

## 4.7.1. Measures following confirmation of a BSE case:

## 4.7.1.1. Description:

## 4.7.1.2. Summary table

	Estimated number
Animals to be killed under the requirements of Annex VII, Chapter A, point 2.1 of Regulation (EC) No 999/2001	

<sup>(1)</sup> Rapid tests used as confirmatory tests must be included in Table 4.6.1 Rapid tests in bovine animals.

**▼ M1**

4.7.2. Measures following confirmation of a scrapie case:

4.7.2.1. Description:

4.7.2.2. Summary table

	Estimated number
Animals to be culled and destroyed under the requirements of Annex VII, Chapter A, point 2.3 of Regulation (EC) No 999/2001	
Animals to be sent for compulsory slaughter in accordance with Annex VII, Chapter A, point 2.3(d) of Regulation (EC) No 999/2001	
Animals to be genotyped under the requirements of Annex VII, Chapter A, point 2.3 of Regulation (EC) No 999/2001	

4.7.3. Breeding programme for resistance to TSEs in sheep

4.7.3.1. General description <sup>(1)</sup>:

4.7.3.2. Summary table

	Estimated number
Ewes to be genotyped under the framework of a breeding programme referred to in Article 6a of Regulation (EC) No 999/2001	
Rams to be genotyped under the framework of a breeding programme referred to in Article 6a of Regulation (EC) No 999/2001	

<sup>(1)</sup> Description of the programme accordance with the minimum requirements set out in Annex VII, Chapter B of Regulation (EC) No 999/2001.

NUTS (2) code <sup>(b)</sup>	Total number of duck, geese, and farmed game birds holdings	Total number of duck, geese, and farmed game birds holdings to be sampled	Number of samples per holding	Total number of tests	Methods of laboratory analysis

▼ **M1**

NUTS (2) code <sup>(b)</sup>	Total number of duck, geese, and farmed game birds holdings	Total number of duck, geese, and farmed game birds holdings to be sampled	Number of samples per holding	Total number of tests	Methods of laboratory analysis
<b>Total</b>					

<sup>(a)</sup> Holdings or herds or flocks or establishments as appropriate.

<sup>(b)</sup> Refers to the location of the holding of origin. In case NUTS (2) code cannot be used, region as defined in the programme by the Member State is requested.

2.3. *Sampling procedures, sampling periods and frequency of testing*

2.4. *Laboratory testing: description of the laboratory tests used and follow up investigations*

3. **Description and implementation of the surveillance programme in wild birds:**

3.1. *Designation of the central competent authority in charge of supervising and coordinating the departments responsible for implementing the programme and relevant collaborating partners (such as epidemiologists, ornithologists, nature bird observation and hunter organisations).*

3.2. *Description and delimitation of the geographical and administrative areas in which the programme is to be applied.*

3.3. *Estimation of the local and/or migratory wildlife population.*

3.4. *Design, criteria, risk factors and target population <sup>(1)</sup>.*

Table 3.2.1

**Wild birds focused on target species**

**Investigations according to the surveillance programme set out in Part 2 of Annex II to Decision 2010/367/EU**

NUTS (2) code/region <sup>(a)</sup>	Wild birds to be sampled <sup>(b)</sup>	Total number of birds to be sampled	Estimated total number of samples to be taken for active surveillance <sup>(c)</sup>	Estimated total number of samples to be taken for passive surveillance

<sup>(1)</sup> Areas at risk (such as wetlands in particular where there are links with high density poultry populations), previous positive findings.

▼ **M1**

NUTS (2) code/region <sup>(a)</sup>	Wild birds to be sampled <sup>(b)</sup>	Total number of birds to be sampled	Estimated total number of samples to be taken for active surveillance <sup>(c)</sup>	Estimated total number of samples to be taken for passive surveillance
<b>Total</b>				

<sup>(a)</sup> Refers to the place of collection of birds/samples. In case NUTS (2) code cannot be used, region as defined in the programme by the Member State is requested.

<sup>(b)</sup> General description of the wild birds which are intended to be sampled in the framework of the active and passive surveillance.

<sup>(c)</sup> Voluntary, to be included for information purposes, not eligible for co-financing.

3.5. *Sampling procedures and sampling periods*

3.6. *Laboratory testing: description of the laboratory tests used*

4. **Description of the epidemiological situation of the disease in poultry during the last five years**

5. **Description of the epidemiological situation of the disease in wild birds during the last five years**

6. **Measures in place as regards the notification of the disease**

7. **Costs**

7.1. *Detailed analysis of the costs:*

7.1.1. Poultry

7.1.2. Wild birds

7.2. *Summary of the costs*

▼ **M1**

## 7.2.1. Poultry surveillance

Detailed analysis of the costs of the programme — poultry			
<b>Laboratory testing</b>			
Methods of laboratory analysis	Number of tests	Unitary test cost (per method)	Total cost
Serological pre-screening <sup>(1)</sup>			
Haemagglutination-inhibition-test (HI) for H5/H7 <sup>(2)</sup>			
Virus isolation test			
PCR test			
<b>Sampling</b>			
	Number of samples	Unitary costs	Total costs
<b>Other measures</b>			
	Number	Unitary cost	Total cost
Others (please specify)			
<b>Total</b>			

<sup>(1)</sup> Specify the laboratory test to be used.

<sup>(2)</sup> Specify number of tests for H5 and for H7.

▼ **M1**

## 7.2.2. Wild bird surveillance

Detailed analysis of the costs of the programme — wild birds			
<b>Laboratory testing</b>			
Methods of laboratory analysis	Number of tests	Unitary test cost (per method)	Total cost
Virus isolation test			
PCR test			
<b>Sampling</b>			
	Number of samples	Unitary cost	Total cost

<b>Total cost poultry and wild birds</b>			

## ANNEX V

**Standard requirements for the submission of national programmes for the eradication of the aquacultures animal diseases referred to in Article 1(e)**

Requirements/information needed	Information/further explanation and justification
<b>1. Identification of the programme</b>	
1.1. Declaring Member State	
1.2. Competent authority (address, fax, e-mail)	
1.3. Reference of this document	
1.4. Date sent to the Commission	
<b>2. Type of communication</b>	
2.1. <input type="checkbox"/> Application for eradication programme	
<b>3. National legislation <sup>(1)</sup></b>	
<b>4. Request for co-finance</b>	
4.1. Indicate the year(s) for which co-finance is requested	
4.2. Agreement of the managing authority of the operational programme <sup>(2)</sup> (signature and stamp)	
<b>5. Diseases</b>	
5.1. Fish	<input type="checkbox"/> VHS <input type="checkbox"/> IHN <input type="checkbox"/> SVC <input type="checkbox"/> ISA <input type="checkbox"/> KHV
5.2. Molluscs	<input type="checkbox"/> <i>Marteilia refringens</i> <input type="checkbox"/> <i>Bonamia ostreae</i>
5.3. Crustaceans	<input type="checkbox"/> White spot disease
<b>6. General information on the programmes</b>	
6.1. Competent Authority <sup>(3)</sup>	
6.2. Organisation, supervision of all stakeholders involved in the programme <sup>(4)</sup>	
6.3. An overview of the structure of the aquaculture industry in the area in question including types of production, species kept etc.	
6.4. Notification to the competent authority of suspicion and confirmation of the disease(s) in question has been compulsory since when?	
6.5. Early detection system in place throughout the Member States, enabling the competent authority to undertake effective disease investigation and reporting since when? <sup>(5)</sup>	
6.6. Source of aquaculture animals of susceptible species to the disease in question entering in the Member State, zone or compartments for farming	
6.7. Guidelines on good hygiene practice <sup>(6)</sup>	
6.8. Epidemiological situation of the disease in at least the previous four years before the commencement of the programme <sup>(7)</sup>	
6.9. Estimated costs and the anticipated benefits of the programme. <sup>(8)</sup>	
6.10. Description of the submitted programme <sup>(9)</sup>	
6.11. Duration of the programme	

**▼B**

Requirements/information needed	Information/further explanation and justification
<b>7. Area covered <sup>(10)</sup></b>	
7.1. <input type="checkbox"/> Member State	
7.2. <input type="checkbox"/> Zone (entire water catchment area) <sup>(11)</sup>	
7.3. <input type="checkbox"/> Zone (part of water catchment area) <sup>(12)</sup> Identify and describe the artificial or natural barrier that delimits the zone and justify its capability to prevent the upward migration of aquatic animals from the lower stretches of the water catchment area.	
7.4. <input type="checkbox"/> Zone (more than one water catchment area) <sup>(13)</sup>	
7.5. <input type="checkbox"/> Compartment independent on the surrounding health status <sup>(14)</sup>	
Identify and describe for each farm the water supply <sup>(15)</sup>	<input type="checkbox"/> Well, borehole or spring <input type="checkbox"/> Water treatment plant inactivating the relevant pathogen <sup>(16)</sup>
Identify and describe for each farm natural or artificial barriers and justify its capability to prevent that aquatic animals enter each farm in a compartment from the surrounding watercourses.	
Identify and describe for each farm the protection against flooding and infiltration of water from the surrounding	
7.6. <input type="checkbox"/> Compartment dependent on the surrounding health status <sup>(17)</sup>	
<input type="checkbox"/> One epidemiological unit due to geographical localisation and distance from other farms/farming areas <sup>(18)</sup>	
<input type="checkbox"/> All farms comprising the compartment fall within a common biosecurity system. <sup>(19)</sup>	
<input type="checkbox"/> Any additional requirements <sup>(20)</sup>	
7.7. Farms or mollusc farming areas covered by the programme (registration numbers and geographical situation)	
<b>8. Measures of the submitted programme</b>	
8.1. Summary of the measures under the programme	
First year <input type="checkbox"/> Testing <input type="checkbox"/> Harvesting for human consumption or further processing <input type="checkbox"/> Immediate <input type="checkbox"/> Delayed <input type="checkbox"/> Removal and disposal <input type="checkbox"/> Immediate <input type="checkbox"/> Delayed <input type="checkbox"/> Vaccination <input type="checkbox"/> Other measures (specify)	Last year <input type="checkbox"/> Testing <input type="checkbox"/> Harvesting for human consumption or further processing <input type="checkbox"/> Immediate <input type="checkbox"/> Delayed <input type="checkbox"/> Removal and disposal <input type="checkbox"/> Immediate <input type="checkbox"/> Delayed <input type="checkbox"/> Other measures (specify)
8.2. Description of the measures of the programme <sup>(21)</sup>	
Target population/species	
Used tests and sampling schemes. Laboratories involved in the programme <sup>(22)</sup> .	
Rules on movements of animals	

Requirements/information needed	Information/further explanation and justification
Used vaccines and vaccination schemes	
Measures in case of a positive result <sup>(23)</sup>	
Compensation scheme for owners	
Control and supervision on the implementation of the programme and reporting	

<sup>(1)</sup> National legislation in force applicable to the application for eradication programme.

<sup>(2)</sup> In accordance with Article 12 of Commission Regulation (EC) N 498/2007 of 26 March 2007 laying down detailed rules for the implementation of Council Regulation (EC) No 1198/2006 on the European Fisheries Fund (OJ L 120, 10.5.2007, p. 1).

<sup>(3)</sup> A description shall be provided of the structure, competencies, duties and powers of the Competent Authority or Competent Authorities involved.

<sup>(4)</sup> A description shall be provided of the authorities in charge of the supervision and coordination of the programme and the different operators involved.

<sup>(5)</sup> The early detection systems shall in particular ensure the rapid recognition of any clinical signs consistent with the suspicion of a disease, emerging disease, or unexplained mortality in farms or molluscs farming areas, and in the wild, and the rapid communication of the event to the competent authority with the aim to activating diagnostic investigation with minimum delay. The early detection system shall include at least the following:

(a) broad awareness, among the personnel employed in aquaculture businesses or involved in the processing of aquaculture animals, of any signs consistent with the presence of a disease, and training of veterinarians of aquatic animals health specialists in detecting and reporting unusual disease occurrence;

(b) veterinarians or aquatic animal health specialists trained in recognising and reporting suspicious disease occurrence;

(c) access by the competent authority to laboratories with the facilities for diagnosing and differentiating listed and emerging diseases.

<sup>(6)</sup> A description shall be provided in accordance with Article 9 of Directive 2006/88/EC of 24 October 2006 on animal health requirements for aquaculture animals and products thereof, and on the prevention and control of certain diseases in aquatic animals (OJ L 328, 24.11.2006, p. 14).

<sup>(7)</sup> Information shall be given using the table laid down in Part 10 of Annex V to this Decision.

<sup>(8)</sup> A description shall be provided of the benefits for farmers and society in general.

<sup>(9)</sup> A concise description of the programme shall be given with the main objectives, the main measures, the target population, the areas of implementation and the definition of a positive case.

<sup>(10)</sup> The area covered shall be clearly identified and described in a map, which should be attached as an Annex to the application.

<sup>(11)</sup> An entire water catchment area from its sources to its estuary.

<sup>(12)</sup> Part of a water catchment area from the source(s) to a natural or artificial barrier that prevents the upward migration of aquatic animals from the lower stretches of the water catchment area.

<sup>(13)</sup> More than one water catchment area, including their estuaries, due to the epidemiological link between the catchment areas through the estuary.

<sup>(14)</sup> Compartments comprising one or more farms or mollusc farming areas where the health status regarding a specific disease is independent on the health status regarding that disease of surrounding natural waters.

<sup>(15)</sup> An compartment which is independent of the health status of surrounding waters, shall be supplied with water:

(a) through a water treatment plant inactivating the relevant pathogen in order to reduce the risk of the introduction of the disease to an acceptable level; or

(b) directly from a well, a borehole or a spring. Where such water supply is situated outside the premises of the farm, the water shall be supplied directly to the farm, and be channelled through a pipe.

<sup>(16)</sup> Technical information shall be provided to demonstrate that the relevant pathogen is inactivated in order to reduce the risk of the introduction of the disease to an acceptable level.

<sup>(17)</sup> Compartments comprising one or more farms or mollusc farming areas where the health status regarding a specific disease is dependent on the health status regarding that disease of surrounding natural waters.

<sup>(18)</sup> A description shall be provided of the geographical localisation and the distance from other farms/farming areas that make possible to consider the compartment as one epidemiological unit.

<sup>(19)</sup> A description shall be provided of the common biosecurity system.

<sup>(20)</sup> Each farm or mollusc farming area in a compartment which is dependent on the health status of surrounding waters shall be subject to additional measures imposed by the competent authority, when considered necessary to prevent the introduction of diseases. Such measures may include the establishment of a buffer zone around the compartment in which a monitoring programme is carried out, and the establishment of additional protection against the intrusion of possible pathogen carriers or vectors.

<sup>(21)</sup> A comprehensive description needs to be provided unless reference can be made to Community legislation. The national legislation in which the measures are laid down shall be mentioned.

<sup>(22)</sup> Describe diagnostic methods and sampling schemes. When OIE or EU standards are applied, refer to them. If not, describe them. Name the laboratories involved in the programme (National Reference Laboratory or designated laboratories).

<sup>(23)</sup> A description is provided of the measures as regards positive animals (immediate or delayed harvesting for human consumption, immediate or delayed removal and disposal, measures to avoid the spread of the pathogen when harvesting, further processing or removal and disposal takes place, a procedure for the disinfection of the infected farms or mollusc farming areas, a procedure for restocking with healthy animals in farms or farming areas which have been depopulated and creation of surveillance zone around the infected farm or farming area, etc.).

▼ **B**

10. **Data on the epidemiological situation/evolution of the disease in the last four years (one table for each year of implementation)**

10.1. *Data on testing animals*

Member State, zone or compartment <sup>(a)</sup>

Disease:

Year

Farm or mollusc farming area	Number of samplings	Number of clinical inspections	Water temperature at sampling/ inspection	Species at sampling	Species sampled	Number of animals sampled (total and by species)	Number of tests	Positive results of laboratorial examination	Positive results of clinical inspections
<b>Total</b>									

<sup>(a)</sup> Member State, zone or compartment as defined in Point 7 of Annex V.

## ▼B

## 10.2. Data on testing farms or farming areas

Disease:		Year									
Member State, zone or compartment <sup>(a)</sup>	Total number of farms or mollusc farming areas <sup>(b)</sup>	Total number of farms or mollusc farming areas under the programme	Number of farms or mollusc farming areas checked <sup>(c)</sup>	Number of positive farms or mollusc farming areas <sup>(d)</sup>	Number of new positive farms or mollusc farming areas <sup>(e)</sup>	Number of farms or mollusc farming areas depopulated	% positive farms or mollusc farming areas depopulated	Animals removed and disposed of <sup>(f)</sup>	Target indicators		
									% farms or mollusc farming areas coverage	% positive farms or mollusc farming areas period farms or mollusc farming areas prevalence	% new positive farms or mollusc farming areas farms or mollusc farming areas incidence
1	2	3	4	5	6	7	8 =	9	10 =	11 = (5/4)×100	12 = (6/4)×100
<b>Total</b>											

<sup>(a)</sup> Member State, zone or compartment as defined in Point 7 of Annex V.

<sup>(b)</sup> Total number of farms or mollusc farming areas existing in the Member State, Zone or Compartment as defined in Point 7 of Annex V.

<sup>(c)</sup> Check means to perform a farm/mollusc farming area level test under the programme for the respective disease with the purpose of upgrading the health status of the farm/mollusc farming area. In this column a farm/mollusc farming area should not be counted twice even if has been checked more than once.

<sup>(d)</sup> Farms or mollusc farming areas with at least one positive animal during the period independent of the number of times the farms or mollusc farming areas has been checked.

<sup>(e)</sup> Farms or mollusc farming areas which health status in the previous period was, in accordance with Part A of Annex III to Directive 2006/88/EC, category I, category II, category III or category IV and have at least one positive animal in this period.

In the case of programmes submitted before 1 August 2008, Farms or mollusc farming areas which were not positive to the disease in question in the previous period and have at least one positive animal in this period.

<sup>(f)</sup> Animals × 1 000 or total weight of animals removed and disposed of.

▼ **B**

11. **Targets (one table for each year of implementation)**

11.1. *Targets related to testing animals*

Member State, zone or compartment <sup>(a)</sup>

Disease:		Year					
Farm or mollusc farming area	Number of samplings	Number of clinical inspections	Water temperature at sampling/Inspection	Species at sampling	Species sampled	Number of animals sampled (total and by species)	Number of tests
<b>Total</b>							

<sup>(a)</sup> Member State, zone or compartment as defined in Point 7 of Annex V.

## ▼B

11.2. *Targets on testing farms or farming areas*

Disease:		Year								
Member State, zone or compartment <sup>(a)</sup>	Total number of farms or mollusc farming areas <sup>(b)</sup>	Total number of farms or mollusc farming areas under the programme	Number of farms or mollusc farming areas expected to be checked <sup>(c)</sup>	Number of expected positive farms or mollusc farming areas <sup>(d)</sup>	Number of expected new positive farms or mollusc farming areas <sup>(e)</sup>	Number of farms or mollusc farming areas expected to be depopulated	% positive farms or mollusc farming areas expected to be depopulated	Target indicators		
								Expected % farms or mollusc farming areas coverage	% positive farms or mollusc farming areas Expected period farms or mollusc farming areas prevalence	% new positive farms or mollusc farming areas Expected farms or mollusc farming areas incidence
1	2	3	4	5	6	7	8 = (7/5)×100	9 = (4/3)×100	10 = (5/4)×100	11 = (6/4)×100
<b>Total</b>										

<sup>(a)</sup> Member State, zone or compartment as defined in Point 7 of Annex V.

<sup>(b)</sup> Total number of farms or mollusc farming areas existing in the Member State, zone or compartment as defined in Point 7 of Annex V.

<sup>(c)</sup> Check means to perform a farm/mollusc farming area level test under the programme for the respective disease with the purpose of upgrading, the health status of the farm/mollusc farming area. In this column a farm/mollusc farming area should not be counted twice even if has been checked more than once.

<sup>(d)</sup> Farms or mollusc farming areas with at least one positive animal during the period independent of the number of times the farms or mollusc farming areas has been checked.

<sup>(e)</sup> Farms or mollusc farming areas which health status in the previous period was, in accordance with Part A of Annex III to Directive 2006/88/EC, category I, category II, category III or category IV and have at least one positive animal in this period.

## ▼B

## 12. Detailed analysis of the cost of the programme (one table per year of implementation)

Costs related to	Specification	Number of units	Unitary cost in EUR	Total amount in EUR	Community <sup>(1)</sup> funding requested (yes/no)
<b>1. Testing</b>					
1.1. Cost of the analysis	Test:				
	Test:				
	Test:				
1.2. Cost of sampling					
1.3. Other costs					
<b>2. Vaccination or treatment</b>					
2.1. Purchase of vaccine/treatment					
2.2. Distribution costs					
2.3. Administering costs					
2.4. Control costs					
<b>3. Removal and disposal of the aquaculture animals</b>					
3.1. Compensation of animals					
3.2. Transport costs					
3.3. Disposal costs					
3.4. Loss in case of removal					
3.5. Costs from treatment of products					
<b>4. Cleansing and disinfection</b>					
<b>5. Salaries (staff contracted for the programme only)</b>
