DESIRING to further strengthen Europe's and the Contracting Party countries' position in research in the world, and to intensify scientific cooperation across disciplinary and national boundaries;

CONSIDERING a report by the European Commission to the European Council of 2001(Council Document 6997/01) which identifies population ageing and its social and economic challenges to growth and prosperity to be among the most pressing challenges of the 21st century in Europe, which points out serious infrastructure gaps in understanding individual and population ageing, and which then calls to 'examine the possibility of establishing, in cooperation with Member States, a European Longitudinal Ageing Survey' in order to foster European research on ageing;

BUILDING on the current prototype of a Survey of Health, Ageing and Retirement in Europe (SHARE) which has been selected by the ESFRI roadmap process to be upgraded as one of the central research infrastructures of the European Research Area;

RECOGNISING that this new interdisciplinary, international, and longitudinal survey with unprecedented quality regarding coherence, breadth and international comparability will in the future be of great significance in many different fields of fundamental and applied sciences such as demography, economics, epidemiology, gerontology, biology, medicine, psychology, public health, health policy, sociology and statistics;

RECOGNISING that evidence-based public policy making requires an up-to-date data infrastructure;

EXPECTING other countries to participate in the activities undertaken together under the following Statutes;

HAVE AGREED AS FOLLOWS:

Article 1

Establishment of a SHARE-ERIC

(1) There shall be a distributed European Research Infrastructure called the Survey of Health, Ageing and Retirement in Europe (SHARE).

(2) SHARE shall have the legal form of a European Research Infrastructure Consortium (ERIC) incorporated under the provision of Regulation (EC) No 723/2009 and be named 'SHARE-ERIC' (hereafter also referred to as 'the Organisation').

Article 2

Statutory Seat and Working Language

- (1) The Statutory Seat of the Organisation shall be in Tilburg, the Netherlands.
- (2) The Contracting Parties agree to initiate, as soon as the necessary declaration according to Article 5(1)(d) of Regulation (EC) No 723/2009 is provided by the German authorities, an amendment of the Statutes in order to transfer the Statutory Seat to Germany. Such amendment shall not enter into force before the end of Phase I as defined in Article 8.
- (3) The working language of the Organisation shall be English.

Article 3

Tasks

- (1) SHARE-ERIC shall build an infrastructure of micro data of households and individuals necessary to understand individual and societal ageing (hereinafter also referred to as ‘the Survey’). Its main tasks are:
 - (a) to design a core survey instrument which captures the essential information on the economic, health, and family/social conditions of life of individuals aged 50 and older and their partners;
 - (b) to administer this survey instrument every two years to a panel of respondents in each participating countries and to maintain contact to all panel members between panel waves;
 - (c) to assemble the collected information in a user-friendly data base accessible to all scientific researchers subject to applicable data confidentiality restrictions and to maintain this data base including basic data cleaning, imputation, and documentation.
- (2) The current prototype of SHARE shall be upgraded along three dimensions:
 - (a) prolong SHARE over time in order to generate a genuine panel that follows individuals as they age and react to the changes in the social and economic environment. The upgrade will add seven further waves every two years in three phases as defined in Article 8;
 - (b) expand SHARE to include all EU Member States;
 - (c) increase sample size of SHARE in order to make the Survey usable also for with-in-country analyses. In general, the target sample size shall be 6 000 individuals aged 50 and older in each member country.
- (3) The SHARE-ERIC shall pursue its tasks on a non-economic basis.

Article 4

Principles

- (1) SHARE shall be designed by researchers for researchers. Excellence in research is paramount to all other considerations. The scientific excellence of SHARE shall be monitored by an independent Scientific Monitoring Board (Annex 2).

▼B

(2) SHARE shall be a supranational survey. Cross-national comparability within SHARE shall govern all design decisions. In addition, comparability with its sister surveys, notably the U.S. Health and Retirement Study and the English Longitudinal Study of Ageing, shall inform the design decisions of SHARE. Topics with supranational research potential shall have priority over topics applicable to single countries.

(3) SHARE shall integrate economics, health, and social science. Topics with interdisciplinary research potential shall have priority over topics applicable to single disciplines.

(4) SHARE shall be a longitudinal survey, following individuals as they age. Topics with longitudinal research potential shall have priority over topics applicable to single points in time.

(5) Research based on SHARE shall facilitate evidence-based EU policies, such as the Europe 2020 Innovation Union Initiative, to help meeting the challenges of population ageing in all countries of the EU.

*Article 5***Organs of the Organisation and Scientific Partner Institutions**

(1) The organs of the Organisation shall be the General Assembly, hereinafter referred to as ‘the Council’ (Article 6), and the Management Board (Article 7).

(2) Upon proposition of the Management Board and in view of the Principles laid down in Article 4, each Contracting Party shall select a research institution which is responsible for carrying out the scientific tasks of the SHARE-ERIC in its country (hereinafter referred to as ‘Scientific Partner Institution’).

(3) If the Principles laid down in Article 4 are violated by one of the Scientific Partner Institutions, the Contracting Party may replace the Scientific Partner Institution upon proposition of the Management Board.

(4) The Management Board shall seek the advice of the Scientific Monitoring Board (Annex 2) when proposing or replacing a Scientific Partner Institution.

(5) The current Scientific Partner Institutions are listed in Annex 1.

*Article 6***The Council**

(1) Each Contracting Party shall be represented in the Council by up to two delegates. Delegates to the Council shall be appointed and have their appointments terminated by the Contracting Party. Each Contracting Party shall inform the Chairperson of the Council in writing of any appointment or termination of appointments of its delegates to the Council without undue delay.

(2) Each Contracting Party has one single vote in the Council. Decisions shall be taken by simple majority voting unless otherwise determined in these Statutes. In case of a tie, the vote of the Host Country shall break that tie.

(3) The Council shall elect a Chairperson and a Vice-Chairperson from the delegations of the Contracting Parties for a period of two years. With their election the Chairperson and Vice-Chairperson become *supra partes* and leave their delegations. The Contracting Parties affected by these departures appoint another delegate to represent them in the Council.

▼B

(4) The Council meets at least once a year. Meetings of the Council shall be convened by the Chairperson of the Council. Meetings of the Council shall also be convened at the request of at least two Contracting Parties. Extraordinary meetings of the Council may also be convened at the request of the Coordinator (Article 7) if it is required in the interest of the Organisation.

(5) The Council receives and approves the annual report, the financial statement and the annual spending plan submitted by the Management Board. The Council shall review at least annually the actual and forecasted survey and operating costs. The Council acting unanimously may approve a modification of the contribution to those other common costs in the annual spending plan that are not covered by any other funding source (Article 9(5)).

(6) The Council receives and acknowledges the annual activity plan which contains the broad scientific aims of SHARE, the survey emphasis of the next wave, the certification process and the survey and dissemination schedule. Every two years, it receives a report by the Scientific Monitoring Board.

(7) The Council elects with a qualified vote (at least two-thirds of the Contracting Parties) the Coordinator, the Area Coordinators and other members of the Management Board according to Article 7 upon nomination by the Scientific Partner Institutions.

(8) Countries that have committed to SHARE-ERIC through signing the Memorandum of Understanding on Preparing the Survey of Health, Ageing and Retirement in Europe (15 July 2009) may become non-voting members of the Council as observers until they have acceded to SHARE-ERIC according to Article 16.

PRELIMINARY COST ESTIMATES DURING PHASE I (WAVE 4)

This Annex gives preliminary cost estimates for running wave 4 of SHARE in 2010 and 2011, i.e., during Phase I according to Article 8(1). The cost categories refer to Article 9 ('Contributions'). This Annex is not the annual spending plan required by Article 6(5) but serves as a starting point for such a plan which will be set up by the Management Board once the SHARE-ERIC is established.

(A): Preliminary estimates of survey cost estimates have been generated by the SHARE management team based on the 2006 and 2008 survey costs. For new countries, preliminary estimates are based on the costs in comparable countries.

(B): Preliminary estimates of operating costs are based on two full-time-equivalent staff in each country with salaries according to the EU Marie-Curie-Programme and estimates of travel, subsistence and overhead costs in each country based on the 2006 and 2008 waves.

Preliminary operating cost estimates for Austria, the Czech Republic, France, Germany and Poland were supplied by these countries. Their estimated operating costs may involve more or less personnel than assumed in the estimates provided by the SHARE management.

(C): Coordination costs for Germany have been estimated based on the 2006 and 2008 waves.

(D): The countries' contribution to all other common costs have been estimated based on the 2006 and 2008 waves and allocated to each country according to Article 9(5). They may, however, be substantially lower or even zero if other funding organisations such as the European Commission or the U.S. National Institute on Aging contribute to these costs via grants or separate contracts.

*ANNEX 4***RESTRICTED PROCUREMENT PROCEDURE**

The following restricted procurement procedure shall be applied to all survey research and survey development services where the benefits accrue to the entire scientific community and which are wholly remunerated by the SHARE-ERIC.

Survey research and survey development services include those research and development services that are necessary to maintain and advance the state of the art in survey technology. They include, but are not confined to, the development of survey software, research on survey methodology, and the development of innovative interview techniques and their application in the field.

The description of the services to be procured shall be made publicly available in a contract notice before the beginning of the procurement process. The contracting parties shall indicate in such notice the objective and non-discriminatory criteria or rules they intend to apply, the minimum number of candidates they intend to invite and, where appropriate, the maximum number.

Competition can be limited to three potential providers. If there are three or less providers in the market for the services to be contracted, all providers in the market must be included in the competition.

The selection among bidders shall be based on the lowest offer price and the highest service quality. Service quality shall be defined by the description in (1).
